

The Original JEPSON Metal Dry Cutters

JEPSON - Premium Super Dry Cutter 9435

The **Premium Super Dry Cutter 9435** is designed to cut stainless steel, steel, cast iron and all kind of non-ferrous metals fast and burr free without coolant.

The **Premium Super Dry Cutter 9435** is delivered with a long lasting and resharpenable 355 mm (14") saw blade with 90 teeth, ideal to cut any type of material. Further the 14" Jepson machine is the only metal cutting saw on the market with a blade stabilizing system, easy blade exchange and a patented quick release vice which also guarantees a exact miter cut.

The powerful motor with 2.200 watt and 1.300 rpm enables any kind of heavy work. The heavy-duty construction of the saw, which is especially visible on the base, clamping system and blade cover ensures a long life of the machine and saw blade.

Cuts round material up to Ø 140 mm and square material up to 125 mm.

Technical Characteristics

Power Input:	2200 W
Speed:	1300 rpm
Net weight:	25 kg
Miter Cut:	90° - 75° - 60° - 45°
Fixing:	Patented quick release vice
Carbide tipped saw blade	Ø355/90T included

Cutting Capacity

	90°	45°
○	140 mm	110 mm
□	125 x 125 mm	85 x 85 mm
□	105 x 200	85 x 115 mm

Product Range

600561 Ø355 Premium Super Dry Cutter including 355/90T saw blade
600570 Saw blade 355/90T for thin walled material
600580 Saw blade 355/72T for middle walled material
600590 Saw blade 355/60T for thick walled material
600591 Saw blade 355/60T for cast iron
600594 Saw blade 355/66T for mild steel
900593 Saw blade 355/100T for aluminum
900526 Stand for Premium Super Dry Cutter
600546 Thinfix (Fixing for open profiles)
